The principal inverpool failures of the week, in addition to that of Messrs Fernio have comprised the firm of Messrs Holderness & Inition, iron and wood shipbuilders and of Messrs. Boult, English & Brandon, merchants it e liabilities it each case being large.

Messrs, Duff, Cadell & Co., merchants and shipowers and Giannacounle & Coeni ani, commission merchants, have also suspended, with Habilities it is supposed, of less amount. It is an illustration of the fact that in some cases, at all events the actual commencement of war would be less injurious than the chronic apprehension of it; that the shipowains firms who have failed through the recent pressure would most probably on the outbreak of hostifities have found their property greatly increased in value.

The shareholders in Overend Guerney & Co. (limited) will undestand that the meeting called or Wedneslav has been entirely with the view of ascertaining the possibility of renewing operations so as a preserve the good will, and not for the presentation of any statement in regard to the progress of the injudation of the company. A special meeting for the latter purpose will, it is said be convened by the directors as soon as the report shall have been prepared—probably at the end of the month. Meanwhile, the suggestion for the formation of a new company has been advantageously modified so as to provide that the whole of whatever capital may be subscribed shall be paid up, and that there shall be no further liability.

AMERICAN THEATRE.—This popular place of amus-ment of ened of Saturday evening with an immense audience. It has recently passed into the hands of Mr. Earnshaw, who, during a short vacation of two weeks, has had the entire place thoroughly repovaled and greatly improved. Very comfortable at m-chairs of a light and graceful pattern, have been placed in the auditorium, which greatly improves the appearance of the house; they are painted of an oak color, and are much more appropriate than the old one. In fact, this judicious choice of chairs has completely changed the who e effect of the nouse. While they are better located for one comfort of lady patrons, there has been no for the comfort of lady patrons, there has been no loss of room, and more persons can be accommodated than before, without the same amount of pressure. The assies are laid with Brussels carpet of beautiful design. New scenery and stage effects, and a largely increased dramatic company and ballet roupe, will add to the attraction of the place. It is the invention of the new management to make it a first class theatre, the style of entertainment being of a light vandeville class. This evening the Hanon Brothers, said to be the most expert gymrasts in the world, make their first appearance, in collimation with Zanfretta, the Singrists, and the result, stock company. The orchestra, largely inregular stock company. The orchestra, largely increased, has been placed in charge of Dr. Cunnington, and all who know his reputation as a musician will be glad to notice this fact. There is an evident disposition on the part of the new management to make the American a popular place of resort,

AN INTERESTING CASE .- In the Court of | Quarter Sessions on Saturday last, in the case of the commonw-alth, at the relation of the Northern Home for Friendicss Children, vs. Margaret Curran, being a bateas corpus directing the desendant to bring before the Court Join McDernott and Mar-garet McDermott, chileron of Wrs. Ellen McDermott, who had re eased them to the Northern Home some time in 1864, it appeared from the evidence and s'atements of counset that the mother, who was some years since left a widow, with three chi dreh and without an means for their support, occasionally tried to spothe ter sorrows by drinking to excess.

In 1864, conscious of her weakness and mability to maintain her children, sae released them to the

"Home," and went to hive at service. Soon afterwards two of the children were placed out with good families, approved of by the mother. The third was schooled at the "tome." Her aster, Margaret Curran, the defendant, who was also a house-servant, dissatisfied at the children being placed in the "Home," brought a hubeas corpus for bem early last year, claiming that she had the righ to the custody of the coy then at the "Home," and to know where the other children had been bound. The Court dismissed her writ, remanded the boy to the "Home" and refused to put her in a position to disturb the other chi dren, their mo her being en-firely satisfied with the places provided for them by

The aunt then applied to the "Home," through her counsel, to bind John McDermott to a man named McGentels. Tols was sureed to and McGentels. took the boy, but only kept him a few days, and handed him over to the anut, without the knowledge or consent of the "Home" or mother. The anut also obtained knowledge of the whereabouts of the other children, and abducted one of them. Margaret, from an excellent home in Chester county. From that time torward the "Home" had been unable to find either the defendant or the children, attnough the matter was placed in the hands of the police of our city. Their mother was very much distressed at their oss, and was last week taken to the Pennsylvania

Hospital with galioping consumption.

Dr. Herbert, the attending physician at the Hospital, sent word to the "Home" that her disease was very much aggravated by worrying for her children. Redoubled exertions were at once di-rected to be made by the police, under the direction of Officer Benjamin Heeder, who found the defend-ant, and served her with the writ of habeas corpus

upon Inceday last. Her sworn return to the writ on Saturday was that he had not the custody of the children from the time it was issued until now. This return was 'traversed' or denied by the Northern Home and Officer Reeder bells called testified that defendant admitted to him when he served the writ on the Thursday following, that she had control of the children, but would not sive them up. Upon cross-examination, he stated that this last conversation took place upon the steps of Bishop Wood's house

on logan square.

Mr. Mitcheson, for the Northern Home, then stated to the Coart that he had a number of witnesses in attendance, but did not deem it worth while to go beyond defendant's admission, and prowhile to go beyond detendant's admission, and pro-ceeded to argue the case and made a pathetic appeal on behalf of the dring mother longing for a signt of her offs; ring. He was followed by John O'Byrne, Esq. in a humorous speech on behalf of the defendant ant. Judge Pierce at once called the defendant to the har of the Court, and retuked her for the con-tempt she had manifested for the processes of the law and for her syster's feelings.

The defendant, interrupting the Judge, said she

would not tell where the children were, and would sooner die in prison. The Judge accordingly ordered her commitment. Before the adjournment of the Court, however, the defendant expressed a willing cess to take the children to their mother; which Mr kircheson asked the Court that she se allowed to do instead of committing her for contempt, Pierce acquiesced, and the case went over to Satur neyt, when the children are to be given up to the Court.

A PRIZE FIGHT BECKEN UP-ARREST OF FOUR LOCKERS ON. -John Green and a man named Receive adherents of two rival fire companies, have had a grudge against each other for some time past. Only a tew days ago they arranged matters for a prize light, and vesterday asterneous about half-past

20'clock, together with a large number of triends and spectators, they crossed the alarket street bridge to select a spot for the combat.
Lieutenant Tolbert, of the Twenty-fourth Ward, was notified, and he immediately despatched a squad of men under sergeants Saunders and Phy in partial of the negligible. The pullement crossed the squad of men under serguans Saunders and Fav in pursuit of the purdists. The policemen crossed the Market street bridge and repaired to the Cross Keys, distant three miles from the bridge. The Lacutenant and another squad proceeded out Walnut street to Gray's Lane, and communicated with the squad under command of the serguants. It was a certained that the lighters had been in Gray's woods a Gray's lane and Raltimore avenue.

Gray's woods at Gray's lane and Baltimore avenue, but fearing that the officers could pounce upon them unobserved, they continued on out the Baltimore pike to Church lane about one mile over the line into Delaware county. Here they entered a field be onging to Nathan Baker, and made a ring preparatory to commencing the conflict. The ground cted was an open clain, from which a good view cenld be bad of the policemen if they made their

appearance. It is said that ten rounds were fought, when the officers coming in sight, a general stampede was made. The "shoulder-hitters" were hurried into a carriage, while the spectators skedaddled in every direction. The Sergeant's squar captured four of the spectators, named Robert Cocker, Michael Finn, David McConaghy, and Joseph Attwood.

The prisoners were brought to the city and arraigned before an Alderman of the Twenty-Jourth Ward, who committed them to await a requisition from the authorities of Delaware county. One of the rounds was composed of twenty men from the Ninth District. The policemen did the best they could under the circumstances. carriage, while the spectators skedaddled in every

under the circumstances. They had to travel through the raise and mud, and were subjected to great inconvenience. Had the fighters selected Gray's woods, and there carried on their brutal conflict, there is no doubt but that they would have been captured, together with the greater number of the spectators, who, it is stated,

numbered about two hundred. FORGERY CASE, — The proprietor of a jeweiry store, No. 211 North Second street, was notified on Saturday that an attempt would be made to rob his store. The party giving the information was named Henry Graham. Chief Detective Franklin was communicated with, and a watch was set on the premises; but on that hight no attempt at robbery was perpetrated. It appears that Graham again called at the store and the proprietor paid him \$2 for the information he had given him. Shortly after this Graham returned to the store with a note, pur porting to have been signed by Chief Franklin, and recommending him to the favorable consideration of the proprietor. This was presented in order to obtain a further sum of money. Officer Reeder was at once notified, and he arrested Graham, when it was ascertained that the note was a lorgery. Graham was committed by Alderman Beitler to

GOLDEN TRUTH.

TEETH EXTRACTED

ABSOLUTELY WITHOUT PAIN. BY THE

Colton Dental Association. No. 737 WALNUT STREET.

No. 19 Cooper Institute, New York.

No. 168 BALTIMORE STREET, BALTIMORE.

There is nothing which people dread more than pain. ard there is no pain more excruciating than that of having a tooth extracted.

When I first introduced the NITROUS OXIDE OR LAUGRING GAS, as a substitute for chioreform and other in dental operations, I met with sneers and ridicule. But the new agent made a steady and constant progress. The Gas has now had a trial of three years, and

has come out triumphantly!
Many of the leading Dentists of New York and Philade phia, who have given up the use of chlorotorm and ether, send all their patients to me who require to take an anasthetic. I make a specially in the use of the Gas, and have business enough to justify me in making it FRESH every day.

I now use about 300 gallons per day. As TO ITS SAFETY, I have administered it to over 14,000 patients since May, 1863, and no unifersant effects have attended a single case. If there was any danger from laha ing the Gas, would not some one of these have been injuriously affected? All the |Dental and Medical journais now admitthat the Gas is the best anasthetic for tooth-grawing; best, because enough can be given to produce entire insensibility, without any danger; best, because it is so pleasant to breathe, producing no sickness or disagreeable sensations, and leaving the system entirely in two or three minutes; best, because it will succeed with patients on whom chloroform and ether have been tried in vain; best, because the most de icate, nervous, and feeble persons

can breathe it with sa ety; best, because, with many patients, it renders too h-drawing a pleasure. Our patients have all signed a scroll certifying that their teeth have been drawn without pain, and opposite each name is a blank for remarks. The following are a few of the remarks :-

"Without the slightest pain—an uninterrupted dream.

ohn S. Crombinger,

"I am satisfied that nitrous oxide can be used in al cases where other and choroform cannot be safely administered; in many cases the use of the two last ramed anasthetics is by judicious physicians considered ensage; notwithstanding this, thare are too many cases on record where the counter indications were overlooked, and fatal results have followed the use of other and chloroform. I know no case in which I I would consider nitrous oxide gas unadvisable, except in a case of consumption so far gone that the excitament attending the extraction of a tooth would be unsafe without any anasthetic.

From the New York Framerius. From the New York Evangelist:-

without any anasthetic.

From the New York Evangelist:

"We are slow to believe in the edicacy of new remedies which are offered to the public, but the frequent testimony of elersymen and others of our acquaintance has assured us that Dr. COLTON has at last found a means of exprecing teeth absolately without pain."

"To Dr. COLTON is due the credit or reviving the use of this most important agent cultrous oxide) in the practice of Dentistry."—Letter from Surgeon Carnochan, New York.

A clersyman of this city visited the Colton Dental Association a sew das since, and after having a large, troublesome tooth drawn, made this cortificate on the register of the Association;—'No pain! All over in three minu's. A man can leave the dentist's hands in a good humor. The operation was performed by the use of Nitrous Oxide, or Laughing Gas.

A THARKFULHEART.—A lady teacher from Washington recently earne into our office, and said she had some teeth which she wished extracted but she was so nerveus she was straid to take the gas, and she knew she should teel the pain. We assured her there was not the slightest danger, as we had given it to thousands, and never had a failure or accident. She breathed the gas, and we extracted nine teeth.

When she awoke, I said:—Your testh are out. "It is "possible." She placed her hand to her mouth and exclaimed. "God bless you all." She immediately wrote on our seroll her name, and added—The Cotton Dental Association—a blessing to the human race,"
